**SkyComfort**

Customized hearing  
protection for flights

[www.dreve.com](http://www.dreve.com)

## FIRST CLASS FOR YOUR EARS

SkyComfort is our customized hearing protection equipped with a SANOHRA Fly filter, which supports your ears to equalize pressure during flights. SkyComfort also attenuates unpleasant loud background noises such as disturbing turbines and engine noises. The speech intelligibility is maintained, e.g. important announcements in the plane can be heard clearly. Ideal for travelers and frequent flyers for a most comfortable and relaxing flight.

SANOHRA *Fly*

## BOARDING COMPLETED
